(Please fill in the name of your research group or laboratory on the line.)

The SE-Sentence dataset was constructed by BDPL, Hefei University of Technology (HFUT). SE-Sentence dataset aims at aiding research efforts in the area of developing, testing and evaluating sign language emotion recognition algorithms. The sEMG and IMU signals and annotation files in this dataset will be publicly available, but for RESEARCH PURPOSE ONLY. BDPL is serving as the technical agent for the distribution of the database and reserves the copyright of all the data in the dataset, including all the sEMG, IMU signals, and text files.

The Licensee's researchers who request the SE-Sentence dataset must sign this non-exclusive license agreement and thereby agree to obey the restrictions listed in this document. Failure to observe the restrictions might result in access being denied for the request of the future version of the SE-Sentence dataset and being subject to civil damages in case of publication of images and other related data that have not been approved for release. The researcher(s) agrees to the following restrictions on using the SE-Sentence database:

1. This agreement grants a non-exclusive, non-transferable, revocable, and limited license to the Licensee to use the Dataset for the purpose of undertaking the Licensed Research Activity only, NON-COMMERCIAL USE.

2. Any data, including but not limited to the sEMG, IMU data, text annotation files in the database, will never be released in commercial materials, newspapers, or other public media. The data will be used for the purpose of academic research only.
